

Metal material light weight iPhone handset desktop phone dock

AD631

DOCKING STATION

Play your Apps while talking through iPhone

AD631 is the sleek and modern-looking Handset docking stand for iPhone. You just lay your iPhone 4S, 4, 3GS, 3G, or Android phone with a 3.5 mm headphone jack into the stand, plug in the landline-style handset (AD632) which can use individually outdoor, and pretend that cell phones were never invented.

FEATURES

- New way of using your mobile phone at home and office.
- Compatible with iPhone 4S, 4, 3GS, 3G, iPod Touch Models.
(for Skype Calls) and other wireless phones with 3.5 mm headphone plugs.
- Handset can work individually with any of the phone mentioned above, make the stand becoming multi-purpose – indoor and outdoor.
- Able to connect iPhone data/charging cable while phone is in place
- Able to Watch a screen while you are talking on the phone.
